## Education visits

Groups (*i.e. School*) can organise a visit to Leicester's Recycling Plant.

Visits explain what can be recycled, how and where you can recycle as well as what happens to waste in Leicester (up to 70% is diverted from landfill mechanically).

**Visits include a tour of the plant – a chance to see what happens to waste!**

**If you would like more information or to check availability, please contact us**

Alternatively, we are able to visit you and talk about waste and recycling in Leicester.
